

FORFRA SOLUTIONS

**Build Trust. Deliver Truth.
Protect What Matters.**

Detect. Protect. Evolve.

ABOUT FORFRA

Forfra Solutions is a multidisciplinary professional firm specializing in Data Security, Forensic Audit, Digital Forensics, Crime Investigation, Financial fraud analysis. The company operates at the intersection of technology, investigation, and intelligence, delivering high-impact solutions to corporates, law enforcement agencies, and academic institutions.

OUR ISO CERTIFICATIONS

ISO 9001:2015 – Quality Management

We are ISO 9001 certified, ensuring consistent quality, structured processes, and a customer-first approach. This standard reflects our commitment to delivering reliable services and continuous improvement.

ISO 27001:2022 – Information Security

Guarantees the highest level of data security and risk management. Your sensitive information is handled with strict global standards for confidentiality, integrity, and compliance.

OUR SERVICES

DATA SECURITY

We provide advanced data security using a “royal vault” approach—combining air-gapped systems, strong encryption, and strict access controls to keep your data completely isolated and protected. With controlled access, secure offline infrastructure, and safe transfer methods, we ensure your sensitive information remains private, tamper-proof, and accessible only to authorized individuals.

FORENSIC AUDIT

It uncovers fraud, financial risks, and irregularities while keeping your business compliant and protected. We use investigative expertise and advanced analytics to deliver clear, reliable insights. During regulatory scrutiny, law enforcement searches, or compliance investigations, our certified experts analyze financial and digital records to verify lawful conduct and provide court-admissible reports—ensuring your organization stays secure and legally defensible.

DIGITAL FORENSICS

We provide end-to-end digital forensic services including data imaging, extraction, and in-depth analysis from mobile devices, computers, and networks. Our process ensures evidence integrity, proper chain of custody, and legally admissible reports suitable for litigation and internal investigations.

INVESTIGATIONS & INTELLIGENCE

We offer professional Investigation and Intelligence Services to help businesses and individuals verify information, identify risks, and make informed decisions. Our services include Background Verification, Corporate & Private Investigations, Litigation Support, Due Diligence, Open-Source Intelligence (OSINT), and Business Risk Assessment. We provide accurate, confidential, and reliable insights to support security, compliance, fraud prevention, and business growth.

FINANCIAL & FRAUD INVESTIGATION

We specialize in uncovering financial irregularities, analyzing complex transactions, and tracking fraud across banking systems and digital platforms. Our expertise includes forensic accounting and cryptocurrency tracing to help organizations detect and prevent financial crimes.

LEGAL CONSULTATIONS

Understanding forensic reports helps lawyers build stronger arguments and identify weaknesses in opposing evidence. In a fact-driven legal system, forensic science is a strategic legal asset. Also make legal court admissible forensic report of digital evidences and document forensic.

DOCUMENT EXAMINATION

We verify the authenticity and integrity of critical documents. We examine signatures, handwriting, ink, paper, and digital metadata to detect forgery, alterations, or tampering. Using scientific methods and expert analysis, we provide clear, court-admissible findings—helping you resolve disputes, prevent fraud, and strengthen your legal position.

DATA SECURITY

We follow a “royal vault” approach to data protection—inspired by how trusted advisors of ancient kingdoms safeguarded wealth with secrecy, limited access, and layered control. Combined with modern air-gapped systems, we create environments where data is not just stored, but strategically hidden, isolated, and accessible only to verified authorities. We don’t treat data as files, we treat it as high-value assets that must be protected with discipline, control, and zero exposure.

SECURE OFFLINE INFRASTRUCTURE

- Build isolated systems (air-gapped environments) with no internet connectivity
- Deploy dedicated secure servers and storage devices

DATA PROTECTION & ENCRYPTION

- Apply strong encryption protocols for data at rest.
- Ensure data remains inaccessible without proper authorization.

CONTROLLED DATA ACCESS

- Only the authorised person will be able to access & know the path of data.
- Set up strict access controls (role-based / device-based)
- Enable multi-layer authentication for physical and system access

SECURE DATA TRANSFER

- Implement safe offline transfer methods (encrypted drives, controlled ports)
- Prevent data leakage during movement between systems

WHAT MAKES US DIFFERENT ?

we combine security with accountability—we don't just isolate data, we create controlled environments with strict access protocols, full chain of custody, and compliance with legal standards. This means your data isn't just safe, it's also admissible, traceable, and handled with complete integrity—something other companies don't focus on.

FULLY MAINTAINED CHAIN OF CUSTODY (COC)

- End-to-end documentation of data handling, access, and movement
- Ensures integrity, traceability, and admissibility in legal proceedings

SECTION 63(4)(C) CERTIFICATE COMPLIANCE (INDIAN EVIDENCE FRAMEWORK)

- Proper handling, storage, and presentation of digital evidence
- Ensures data is legally valid and defensible in court

ALIGNMENT WITH DIGITAL PERSONAL DATA PROTECTION ACT, 2023 (DPDP ACT)

- Protection of personal and sensitive data as per Indian regulations
- Implementation of data minimization, purpose limitation, and security safeguards
- Ensuring lawful processing and controlled access mechanisms

FORENSIC AUDIT

- Our forensic auditing services go beyond traditional audits—identifying fraud, financial irregularities, and hidden risks with precision and integrity.
- We combine investigative expertise with advanced analytics to trace discrepancies, uncover fraud, and support legal proceedings.
- From fraud detection to litigation support, we deliver fact-based insights you can trust.

TARGETED INDUSTRIES

- Banking & Financial Services (NBFCs, Fintech)
- Manufacturing & Trading Companies
- Real Estate & Infrastructure
- E-commerce & Startups
- Healthcare & Hospitals
- Government & PSU Projects
- Education Institutions (Universities & Colleges)
- Insurance Companies
- Retail Chains & FMCG
- NGOs & Trusts

DIGITAL FORENSICS

We deliver court-admissible digital forensic investigations for both law enforcement and corporate clients—covering evidence acquisition, analysis, and expert reporting.

OUR CLIENTS

LAW ENFORCEMENT

- Income Tax Department
- GST Authorities
- Police Departments
- Enforcement Directorate (ED)
- Competition Commission of India (CCI)
- Securities and Exchange Board of India (SEBI)

CORPORATE CLIENT - SERVICES

- Internal Fraud Investigations
- Data Breach Response & Risk Assessment
- Compliance & Regulatory Support
- Corporate Due Diligence & Background Checks

DIGITAL FORENSICS SERVICES

- **Computer Forensics** : Recovery, analysis, and preservation of data from desktops, laptops, and servers while maintaining strict chain of custody.
- **Mobile Device Forensics** : Extraction and analysis of data from smartphones, tablets, SIM cards, and mobile apps (WhatsApp, emails, call logs, etc.).
- **Email & Communication Forensics** : Investigation of email trails, header analysis, phishing detection, and recovery of deleted communications.
- **Cloud Forensics** : Investigation of data stored on cloud platforms (Google Drive, AWS, OneDrive) including access logs and data recovery.
- **CCTV & Video Forensics** : Enhancement, authentication, and analysis of surveillance footage for legal and investigative purposes.
- **Audio Forensics** : Voice analysis, authentication, noise reduction, and tampering detection in audio recordings.
- **Expert Witness & Litigation Support** : Court-admissible reports, expert testimony, and assistance in legal proceedings.

INVESTIGATIONS & INTELLIGENCE

BACKGROUND VERIFICATION SERVICES

Our Background Verification Services help organizations make informed hiring decisions by validating an individual's identity, address, employment history, educational qualifications, criminal records, and professional references. We deliver accurate, confidential, and compliance-driven verification reports to minimize hiring risks.

CORPORATE & PRIVATE DETECTIVE SERVICES

We provide discreet and professional investigative services for corporate entities and individuals, including employee misconduct investigations, fraud inquiries, asset tracing, surveillance, missing person investigations, and confidential intelligence gathering while maintaining the highest standards of ethics and confidentiality.

LITIGATION SUPPORT INVESTIGATIONS

Our Litigation Support Services assist legal professionals and clients by uncovering critical evidence, conducting fact-finding inquiries, document reviews, and providing investigative insights that strengthen legal proceedings and support case strategy.

DUE DILIGENCE & BACKGROUND VERIFICATION

We conduct comprehensive due diligence on individuals, businesses, vendors, partners, and investment opportunities by assessing financial integrity, corporate history, litigation records, reputation, and potential risks to support informed business decisions.

OPEN-SOURCE INTELLIGENCE (OSINT)

Our OSINT services leverage publicly available information from digital platforms, social media, corporate records, public databases, and online sources to gather actionable intelligence for investigations, risk assessments, due diligence, and threat analysis.

BUSINESS INTELLIGENCE & RISK ASSESSMENT

We help organizations identify, evaluate, and mitigate operational, financial, reputational, and compliance risks through strategic intelligence gathering, market analysis, third-party assessments, and investigative research, enabling informed decision-making and business resilience.

FRAUD & FINANCIAL CRIME INVESTIGATION

We provide specialized digital forensic support in uncovering complex financial crimes by tracing digital evidence, reconstructing transactions, and identifying fraudulent intent. Our approach combines advanced forensic tools with investigative expertise to deliver legally admissible findings, supporting organizations and authorities in cases of fraud, embezzlement, bribery, and corporate misconduct

- **Transaction Trail Analysis** : Examination of financial records, bank statements, and digital ledgers to trace fund movement and identify suspicious patterns.
- **Forensic Accounting Support** : Correlation of financial discrepancies with digital evidence to detect manipulation, misreporting, or fund diversion.
- **Email & Communication Forensics** : Deep analysis of internal and external communications to identify collusion, insider threats, or policy violations.
- **Data Manipulation Detection** : Identification of altered, deleted, or fabricated records within accounting systems and databases.
- **Benami & Shell Entity Investigation** : Tracing hidden ownership structures, shell companies, and proxy transactions through digital footprints.
- **Employee Misconduct & Insider Fraud** : Investigation of internal fraud involving employees, vendors, or management using system logs and access history.
- **Regulatory & Legal Case Support** : Preparation of detailed forensic reports compliant with legal standards, suitable for agencies and court proceedings.

LEGAL CONSULTATION SERVICES

We provide strategic legal consultation backed by forensic insights, helping legal organizations and authorities navigate complex crimes, incidents, and regulatory challenges. Our approach bridges the gap between technical evidence and legal strategy—ensuring every case is structured, compliant, and court-ready.

Forensic-Legal Advisory :

Translating digital and physical evidences into legally admissible insights to support strong case building.

Litigation Support & Case Strategy :

Assisting legal teams with evidence structuring, documentation, and technical inputs for ongoing or upcoming cases.

Regulatory Compliance Advisory :

- Guidance on compliance with Indian laws including
- Digital Personal Data Protection Act, 2023,
- Information Technology Act, 2000, and financial regulations

Corporate Fraud & Risk Advisory :

Legal guidance in cases of internal fraud, employee misconduct, and financial irregularities.

Expert Witness Services :

Providing courtroom testimony and technical explanations to support legal proceedings.

DOCUMENT EXAMINATION & VALIDATION

We provide comprehensive forensic examination of physical and digital documents to verify authenticity, detect manipulation, and establish evidentiary reliability. Our services combine scientific analysis with advanced digital forensics to support legal proceedings, fraud investigations, and corporate due diligence.

- **Handwriting & Signature Authentication** : Scientific comparison and verification of handwriting and signatures to detect impersonation or forged authorizations.
- **Forgery & Alteration Detection** : Identification of overwritten, erased, or modified content in documents using forensic techniques and visual analysis.
- **Metadata & Digital Document Inspection** : Examination of file properties, timestamps, authorship, and digital footprints to uncover tampering or backdating.
- **Paper, Ink & Print Analysis** : Assessment of paper quality, ink composition, and printing methods to determine document origin and detect inconsistencies.
- **Tamper & Manipulation Checks** : Detection of physical or digital alterations including cut-paste, layering, and unauthorized edits.
- **Evidentiary File Preparation** : Structuring findings into legally admissible reports with proper documentation and chain of custody compliance.

CORPORATE CRIME AWARENESS PROGRAM

FINTECH & CORPORATE FRAUDS

- Payment gateway manipulation & refund scams
- Fake invoicing & vendor frauds
- Money mule account networks
- Payroll & reimbursement frauds
- UPI, wallet, and digital banking abuse
- Shell companies & transaction layering

DIGITAL EXPLOITATION & CYBER ABUSE

- Business Email Compromise (BEC) attacks
- Phishing & spear-phishing campaigns
- CEO/CFO impersonation frauds
- Social engineering tactics targeting employees
- Fake domains, spoofed emails & identity misuse
- Credential theft & unauthorized system access

INTERNAL THREATS & EMPLOYEE RISKS

- Insider data theft & confidential information leaks
- Misuse of company assets and systems
- Weak password & access control practices
- Compliance failures & policy violations
- Unauthorized sharing of client/company data
- Risks from third-party vendors & contractors

LEGAL & REGULATORY AWARENESS

- POSH Act awareness & compliance guidelines
- Employee rights & grievance mechanisms
- Prevention of workplace harassment & misconduct
- Ethical digital communication practices
- Safe reporting channels & whistleblower protection
- Building a secure and compliant work culture

WORKPLACE SAFETY & ETHICAL CONDUCT

- Key provisions under the IT Act
- Relevant IPC/BNS cyber & fraud provisions
- Corporate compliance & reporting obligations
- Digital evidence handling & admissibility
- Data privacy & confidentiality responsibilities
- Incident escalation & investigation protocols

SCHOOL CRIME AWARENESS PROGRAM

BUILDING SAFER SCHOOLS THROUGH AWARENESS & PREVENTION

Creating awareness among students, teachers, and parents is essential to prevent modern-day crimes, cyber threats, and unsafe behaviors. Our School Crime Awareness Program focuses on educating young minds about safety, responsibility, legal awareness, and digital protection.

PROGRAM OBJECTIVES

- Promote safe and responsible student behavior
- Create awareness about cybercrime & digital safety
- Educate students on legal and social consequences of crimes
- Encourage reporting of suspicious or harmful activities
- Build a secure and respectful school environment

WHO CAN ATTEND?

- School students (Middle & Senior classes)
- Teachers & school staff
- Parents & guardians
- School management teams

KEY AWARENESS TOPICS

CYBER SAFETY & DIGITAL AWARENESS

- Cyberbullying and online harassment
- Social media safety & privacy protection
- Phishing, fake links & online scams
- Gaming frauds and digital addiction risks
- Safe use of mobile phones & internet platforms
- Identity theft and password security

STUDENT SAFETY & CRIME PREVENTION

- Stranger danger and personal safety
- Substance abuse awareness
- Violence, bullying & peer pressure prevention
- Threats, blackmail & intimidation awareness
- School vandalism and disciplinary consequences
- Emergency response and safety preparedness

LEGAL AWARENESS FOR STUDENTS

- Juvenile laws and student responsibilities
- Consequences of cybercrime and online misuse
- Digital evidence and online accountability
- Awareness about fake news & misinformation
- Responsible online communication and conduct

MENTAL HEALTH & SOCIAL RESPONSIBILITY

- Managing stress and peer pressure
- Importance of respectful behavior
- Building confidence to report unsafe incidents
- Emotional wellbeing and support systems
- Encouraging positive digital citizenship

POSH & SAFE SCHOOL ENVIRONMENT

- Awareness against harassment and misconduct
- Respectful communication and boundaries
- Reporting mechanisms and student protection policies
- Teacher-student ethical conduct awareness
- Creating inclusive and safe learning spaces

PROGRAM ACTIVITIES

- Interactive awareness sessions
- Real-life case studies & demonstrations
- Cyber safety workshops
- Q&A sessions with experts
- Safety pledge and awareness drives
- Parent and teacher orientation programs

BENEFITS FOR SCHOOLS

- Improved student safety awareness
- Stronger cyber hygiene practices
- Better reporting and prevention culture
- Reduced risk of digital exploitation
- Enhanced compliance with student safety policies
- Positive and secure educational environment

TOGETHER, WE CAN BUILD SAFER SCHOOLS

**Early awareness is the strongest defense against modern crimes.
Educating students today helps create responsible, informed, and secure citizens for tomorrow.**

CAREER OPPORTUNITIES IN LAW ENFORCEMENT AS A FORENSIC EXPERT

BUILD A CAREER THAT PROTECTS JUSTICE & SOCIETY

Forensic experts play a critical role in modern investigations by helping law enforcement agencies uncover digital evidence, financial frauds, cybercrimes, and criminal activities. With the rapid growth of technology-driven crimes, the demand for skilled forensic professionals is increasing across government and private sectors.

LET'S WORK TOGETHER

Whether you require digital forensics, fraud investigation, or document validation—our team is ready to deliver accurate, court-admissible solutions when it matters most.
